## ABOUT ME

I'm a beginner with front-end development skills. I like work that primarily focused on developing user interface. I'm quite accurate and I carefully monitor the quality. I don't think it's wasting time to write tests. I like to work in collaboration as working together means sharing resources efficiently and keeping people informed. As they say: «Two heads are better than one». In my spare time I am engaged in self - development. In order to improve my programmer techniques I read a lot of specific literature and use a variety of sources such as Habrahabr, SmashingMagazine, Medium.

## PROFESSIONAL SKILLS

I know  
JavaScript (ES6+), HTML, CSS, PostCSS, Canvas, SVG, Vue.js, Vuex, Node.js, Gulp, Webpack, Git.

Understand the sense  
mocha, chai, karma, react.
